(54) TELEVISION CONFERENCE SYSTEM

(57)Abstract:

PURPOSE: To simplify the coupling of meetings without installing exclusive use of terminals, by picturing out the video of other groups on the document TV and performing the selection of video with the key station, in coupling a plurality of TV conference groups.

CONSTITUTION: Group I is formed for the TV conference at the three locations of stations A~C, and group II is formed for two stations D and E. The stations A and D of the groups I and II are given with the chairman of the conferences, and the station A is taken as the key station of the conferences and the station D is taken as the substation of the conferences. Further, the video of the groups I and II is pictured on the document use TV12c~12i and 13b, 13d, and the selection is made with the switches SW1, SW2 located at the station A or D to simplify the coupling of the conferences.

LEGAL STATUS

[Date of request for examination]

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's
decision of rejection]

[Date of extinction of right]
